

UID International Strategy

International Strategy – Recent Actions

- ◆ Defense Support
 - Australia - MGen Peter Haddad, Commander for Joint Logistics has agreed to support the establishment of an Australian equivalent UID Policy
 - Canada – Has stated they support UID and we will work a Policy with them
 - United Kingdom – Has issued UID policy matching ours. There are still a few “caveat issues” to address such as preferences for AI over other data qualifiers

- ◆ Standards Support
 - Australia – MGen Haddad agreed to express support to SC 31 HoD and urge working support of proposal
 - Canada – Canadian HoD has already agreed to support, need to clarify working support. May want Pratt & Whitney to contact SC 31 rep to show industry support
 - Denmark – French HoD is helping to educate and persuade
 - France – French HoD supports, but would like to find Industry and Defense support to proceed. Expect Snecma, Turbomecca and Airbus to contact the SC 31 rep following Munich Mtg
 - Germany – Expect Airbus and MTU to contact their SC 31 rep following Munich Mtg
 - Italy – Expect Avio to contact their SC 31 rep following Munich Mtg
 - Japan – Expect Japanese Aero Engine Corporation to contact their SC 31 rep following Munich Mtg
 - Spain – Expect ITP to contact their SC 31 rep following Munich Mtg
 - United Kingdom – UK MoD policy needs to be provided to SC 31 rep and support expressed.
